**Herbicide**

EPA Reg. No. 3125-366

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product through any type of irrigation system.

RECOMMENDED APPLICATIONS			
CROP	WEEDS	DOSAGE PER ACRE TURBO 8EC	REMARKS
Peas	Dog fennel Lambsquarters Pigweed Smartweed Field Pennycress	1 to 1.5 pts	Apply a minimum of 10 gallons of water per acre preemergence after planting. Use the lower rate on soils low in organic matter and the high rate for soils high in organic matter. Do not use on sandy soils or soils with less than 1.5% organic matter. Moisture is necessary after treatment to activate a surface application. Weed control may be reduced if dry conditions persist after treatment. A shallow incorporation would improve activity in dry weather. Very heavy rain following application may result in crop injury.  <u>Note:</u> Do not cut hay within 120 days following application, or illegal residues may result.

This labeling must be in the possession of the user at time of pesticide application.
